

Quartile Reporting

Representation of employees by their average remuneration

Our female employees are well represented throughout the business and are as likely to be part of the Senior Management Team as their male counterparts.

We are also pleased that the gender pay gap is minimal when we look at the organisation as a whole, across each of the quartiles. Equally, our female employees are as likely, or more likely, to receive a bonus compared to their male counterparts.

Actavo is an equal opportunities employer. We will continue to monitor our performance in this area.

Gender Pay Gap Reporting

Given the industries in which we operate and the nature of the roles within those industries, our workforce is currently predominantly male – **86%**.

Gender Pay and Bonus Pay Gap

Pay Gap - Hourly Remuneration and Bonus Remuneration Gap

Across the Group, the gender pay gap is on average **3.6%**, which has reduced from 6.3% in the previous year. This means that for every **€1** a man earns, a woman in the business can expect to earn **96.4c**.

From a bonus perspective, females are on average likely to receive a **3.7%** lower bonus than their male counterparts. This has reduced from last year's figure of 7.6%. This means that for every **€1** bonus a male receives, a female in the business can expect to receive **€0.96**.
